---

## Scope and Contents

---

The collection contains letters, programs, meeting minutes, speeches, event tickets, brochures, pamphlets, invitations, financial records, legislative materials, political memorabilia, and other rare items dating primarily from the 19th through the mid- 20th century.

Of particular significance are letters, petitions, and legislative acts documenting the work of elected and appointed mayors; a Board of Alderman; and City Councils from 1802 through the early 1870s in the "Politics and Government Series." The District had an appointed Mayor and elected City Council from 1802 through 1812; in 1812 a Charter amendment allowed for the election of all city officials.

Another important series includes the newsletters, correspondence, flyers, programs, and yearbooks of the numerous civic, social, and cultural organizations starting in the late 19th century. These materials are primarily in two series: "Civic and Citizens Associations," and "Societies, Clubs and Organizations." Other notable items include Congressional speeches on the abolition of slavery from 1833 through the 1860s; guidebooks and published descriptions of Washington, D.C.; musical scores celebrating

Washington, D.C. history and events; architectural specifications for the U.S. Capitol, House Office Building, Post Office and other local buildings; local business advertising; documentation for the founding and development of the Washington City Canal; Centennial memorabilia and programs; letters and autographs of famous persons and families; and publications and programs about or from churches, colleges, and schools in the District.

### Publication Statement

People's Archive, MLK Library

901 G Street NW  
Washington, DC  
[peoples.archive@dc.gov](mailto:peoples.archive@dc.gov)

### Custodial History

The collection was artificially created by the D.C. Public Library and primarily consists of rare and/or historical documents, which were removed from the Washingtoniana Vertical File Collection to ensure their preservation. Small groupings of materials and single items donated to D.C. Public Library which are not placed in the vertical files are added to this collection regularly.

### Processing Information

Pre-1980 primary source materials and rare historical items such as letters, political memorabilia, catalogs, and meeting minutes were filed in the Vertical File Collection. In the 1980s rare and/or historical items were removed from the vertical files to ensure their preservation. Generally, all items have been filed under the same or similar topics established for the Vertical File Collection. Oversized documents were placed in a map case or oversized containers, and a separation sheet was inserted in the original location to indicate the new location. Photocopies of some original items have been placed in the Vertical File Collection for increased patron access. In 2018, the original collection was rehoused and increased preservation measures (sleeving or individual foldering) for many items were performed. A selection criteria for additions to the collection was also drafted and approved. Folders within the boxes are arranged first alphabetically and then chronologically, when applicable. When a topic contains general or undated materials, those items appear first in the chronological order.

### Restrictions

Some materials within this collection may be copyrighted and it is the responsibility of the researcher to obtain permission to publish any reproductions.
