## Biographical / Historical

Mary E. A. Mitchell, a photographer and historian, was born in Minneapolis, Minnesota and attended Wellesley College. She moved to Washington, D.C. in 1953 and lived there until the death of her husband in 1985 when she moved to Newton, Connecticut to be closer to her two daughters. Ms. Mitchell has written several books on Washington, including: *A Walk in Georgetown* (1966, Barre Publishers), *Divided Town* (1968, Barre Publishers), *Washington: Portrait of the Capital* (1972, Barre Publishers), *Glimpses of Georgetown* (1983, The Road Street Press), and *Chronicles of Georgetown Life, 1865-1900* (1986, Seven Locks Press).

[^ Return to Table of Contents](#)

---

## Scope and Contents

The collection consists of 86 packages of strip negatives. Some packages contained multiple negatives bringing the total number of strip negatives to 97. The strip negatives contain between one and seven images, with 372 total images in the collection. All images were taken by Mary Mitchell and are of locations throughout D.C. including the U.S. Capitol building, Chinatown, Dupont Circle, National Mall,

and Lafayette Square. It appears that this collection includes 85 or more images that were printed in Mary Mitchell's book *Washington: Portrait of the Capital* (1972, Barre Publishers).

### Publication Statement

DCPL Special Collections - MLK Library

901 G Street NW  
Washington, DC  
[archives.dcpl@dc.gov](mailto:archives.dcpl@dc.gov)

### Revision Description

Finding aid revised to be more evergreen. 2020-06-04

### Custodial History

There is no deed of gift and it is uncertain as to how the library acquired these photographs. A handwritten note appears on the original storage envelope indicating it was donated to the Library in 1975.

### Processing Information

For each strip negative the following process was used in their re-housing. The strips were assigned a number and then re-housed in acid-free archival envelopes. If there were multiple images on the strip, then each image was assigned a letter. Letters were assigned from top to bottom or from left to right, depending on the type of strip negative. Any intellectual information on original housing was transferred to the new housing.

### Processing Information

Basic archival procedures were used at the time of processing. The negative strips were assigned a number and then re-housed in acid-free archival envelopes. If there were multiple images on the strip, then each image was assigned a letter. Letters were assigned from top to bottom or from left to right, depending on the type of strip negative. Any intellectual information on original housing was transferred to the new housing.

## Conditions Governing Use

There are no restrictions on viewing this collection and all photographs are in the public domain, therefore there are no restrictions on reproductions. Reproductions should appear with the proper attribution indicating that the photograph is housed in the Mary Mitchell Collection and indicate that they appear "courtesy of the DC Public Library, Special Collections."
